TABLE 42.—RECEIPTS AND OUTLAYS OF PUBLIC AUTHORITIES

The table on the following page gives details of Government receipts and outlays that have been identified as relating specifically to the performance of local or State-type functions in the Northern Territory for 1976-77 and 1977-78. Receipts collected in the Northern Territory from Australia-wide sources (e.g. income taxes, customs duties, etc.) and outlays in the Northern Territory on items of a national character (e.g. defence, civil aviation and eash benefits paid to Northern Territory residents as part of national programs) are not included.

In addition to transactions relating to the Northern Territory in the Consolidated Revenue Fund and certain trust funds, the transactions of the following public corporations are included: Northern Territory Port Authority, Northern Territory Housing Commission, Corporation of the text of Darwin. Corporation of the Municipality of Alice Springs, Corporation of the Municipality of Katherine and Corporation of the Municipality of Tennant Creek. Outlay totals from 1977-78 include expenditure authorised by the Northern Territory Legislative Assembly.

On 1 July 1978 the Northern Territory became self-governing with expenditure responsibilities and revenue raising powers broadly approximating those of a State. As a consequence statistics for 1978-79 onwards show the receipts and outlays of the Northern Territory Government and its subsidiary bodies as a distinct level of government separate from the Commonwealth.

Details of the classifications used in this table are outlined in the bulletin Commonwealth Government Finance. Australia 1979-80 (5502.0).
